

## TECHNICAL DATA SHEET

### **SIGNAGEL<sup>®</sup> ELECTRODE GEL**

Description:	Viscous, clear, light green, aqueous gel
Composition:	Polymer, humectants, surface active agent, FD&C color, sodium chloride, preservatives and reverse osmosis (RO) water
Preservatives:	Propyl paraben and methylparaben in bacteriostatic concentration
Viscosity:	180,000 - 260,000 CPS (Brookfield Viscometer, Model RVT, Spindle T-C, 2.5 RPM)
pH Range (21°):	5.4 – 6.4
Conductivity (25°):	Not less than 40,000 micromhos/cm
Shelf Life:	Five years from month of manufacture
